(c) what are the rules regarding allotment of lockers to customers by branches of nationalised banks and whether they are on uniform basis; if not, reasons for disparity and action contemplated to implement uniform rules in this regard to avoid harassment to customers?

THE MINISTER OF STATE IN THE MINISTRY OF FINANCE (SHRI DALBIR SINGH): (a) and (b) Oriental Bank of Commerce have recently increased the locker rent by Rs. 50/- per annum, after a period of six years. This has been done to meet the increased cost of operations and investments in locker cabinets. The increased rent is applicable to lockers given to new customers. For existing customers increased rent will be payable at the time of payment of annual rent. The bank has also reported that customers in Faridabad have been asked to increase their security deposit so that interest earned on deposit is equivalent to the annual rent payable for the lockers.

As regards other nationalised banks, it may be mentioned that rates of locker rent vary from bank to bank and depend upon the size of the locker, capital cost incurred on installation, expenditure on maintenance, etc. The locker facility is not a normal banking operation and is provided to customers by banks on lease basis subject to availability and feasibility.

(c) In the matter of allotment of lockers, public sector banks are governed by guidelines issued by the Reserve Bank of India. The said guidelines *inter-alia* provide that at least 80 per cent of lockers should be allotted by banks of first-come-first-served basis and remaining 20 per cent on business considerations. There is no objection to the banks seeking deposits from the locker holders to cover annual rent of the lockers from the interest on deposits.
